# Get On Island Time

Recharge on Sanibel and Captiva Islands

## Sea You On The Beach

**Make May memorable with an island vacation!** The sun is out, the emerald-turquoise Gulf waters are beautiful and the breeze is gentle. Be a beach bum. Explore the islands. Or simply relax and do nothing at all. **Whatever you do, you'll be making memories with your favorite people!**

**Did you know?** It's sea turtle nesting season! Female sea turtles return to their beaches to lay their eggs. About two months later, the hatchlings emerge and make their way to the Gulf. Sea turtles are endangered species, so we do what we can to help them survive. After a day at the beach, please fill in holes that can trap turtles and hatchlings, flatten sand castles, and remove other obstacles like beach furniture. At sunset, please close all blinds and turn off all exterior lights. For more ways to help, check out [sccf.org/our-work/sea-turtles](http://sccf.org/our-work/sea-turtles). *As always, if there is anything we can do to make your stay more enjoyable, please let us know.*

## Things To Do

Maybe it's not a beach day or maybe you feel like exploring. Check out our **Things To Do** pages for details about restaurants, shopping, boating, fishing, arts, live music, and more. Even when there's nothing to do, there's always something to do!
